

Yanmar Troubleshooting Course

Marine Pro of Central Fla. is offering a Yanmar hands on troubleshooting course. We will cover one family of engines for each course. We will explain the theory of operation of all major systems as well as disassembly, inspection, and reassembly. We will have a running engine set up on our Dynamometer to simulate different failures. We will cover service schedules based on our 25 years of Yanmar experience. You will learn how to better identify and correct engine failures through understanding. Come join us for a great opportunity to understand "How your engine works".

If you are interested in attending this course please e-mail me at:

frank@marinepro.us.

Please provide the following information:

Name, Phone #, e-mail

Engine Model

Preferred Dates

The course will be 3 nights from 7:00 pm until 10:00 pm. You will be required to have a Service manual for your engine and a pad & pencil. If you do not have a Service manual you can purchase one from our parts dept. Manuals purchased for the course will be offered at a 15% discount.

The cost of the course is \$350.00 and will require a \$100.00 deposit. Deposit must be received at least 3 weeks prior to date of course. The course will be limited to 6-8 people

Course Objective:

Our goal is to provide you with a better understanding of your Yanmar Engine. The benefits of this knowledge extend to many areas of boating.

These include safety, extended engine life, less down time, ability to understand, react, and overcome engine failures.

Don't be at the mercy of your Marine Technician!
